PLANNING & CODE ENFORCEMENT

March 21, 1996

Mr. Kevin Dooley
Anne Arundel County
Department of Planning and Code Enforcement
P.O. Box 6675
Annapolis, Maryland 21401

Dear Mr. Dooley:

Ms. Katharina DeHass, President of the Forks of the Patuxent Improvement Association, notified me that on January 11, 1996 Chesapeake Terrace (Mr. Warren E. Halle) submitted an application to the Maryland Department of the Environment (MDE) for a sand and gravel mining permit. This application was forwarded by MDE to the Anne Arundel County Soil Conservation District to review the erosion and sediment control procedures, which after review was approved. I was also informed that the applicant has changed the location of the proposed entrance/haul road approximately one and a half miles West of the approved entrance to the end of Conway Road across from a historical church. I presented this information to the Greater Odenton Improvement Association (GOIA) Board of Directors at a special board meeting on March 11, 1996.

It is the Board's belief that the Board of Appeals required the location of the entrance/haul road to be on Conway Road roughly 1/2 mile West of the intersection of Conway, Patuxent and Meyers Station Roads, and that the entrance/haul road was to be used for both the surface mining and proposed rubble landfill. The community will be even more significantly impacted by the change of location.

The Board of Directors of the GOIA requests that the applicant be required to comply with the Board of Appeals decision on the location of the entrance/haul road and that all agencies of the state and county be apprised of this situation. It is imperative that all agencies, be it state and/or county, coordinate and share all information pertaining to any application.

Thank you for your attention to this matter. If you have any questions please contact me at (410) 573-7345.

Sincerely,

Glenn Akers
President
