Well, here's our first try at the revitalized interagency communication in keeping with our discussions earlier this week.

Sharon Darden (Office of law) called yesterday with a request on behalf of John Breads. The request was to sign a letter advising MDE that the 1993 special exception for CT had expired. I indicated that if such a letter should be sent, it would be more appropriate to come from the Zoning Office than WMS. Regardless, I indicated that I would review the draft letter and confer with our management to ensure that they concurred with the issuance. I received a message later in the day that Kevin Dooley was contacted, and that a letter going out under my signature was not necessary.

I have communicated via voice mail to Kevin's office my recommendation that nothing go out on this unless you and Ron N are aware in advance. Kevin is apparently tied up and I am uncertain whether he is getting his voice mail messages. If in the final analysis, the letter should go out, I would appreciate a copy for the WMS files. Call me if you have any questions.
