PLANNING ADMINISTRATION

Dear Mr. Tom,

Representatives of the Forks of the Patuxent Improvement Association recently met with the Maryland Department of the Environment (MDE) concerning the proposed Chesapeake Terrace Rubble Landfill. MDE informed us that they issued an invitation to your office to attend a joint plan review in September 2005. According to MDE records, they never received any response from your office. They also have not sent your office any updated submissions due to that lack of response.

We feel certain that the Office of Planning and Zoning must have responded. We know this is an important county issue and would not be ignored. County representatives have attended all Administrative Hearing Officer and Board of Appeals hearings over the last four years and have raised no objections; therefore we know you are following this case closely.

Please provide us with copies of your correspondences with MDE so that we may update their records. This would then allow you to receive updated materials and submissions sent to MDE regarding this proposed landfill, since there have been many.

Sincerely,

Michael Murphy

Michael Murphy  
President, Forks of the Patuxent  
Improvement Association
