October 8, 2019

Anne Arundel County, MD Right of Way Division PO Box 2700 Annapolis, MD 21404

Dear Anne Arundel County, MD, Right of Way Division:

National Waste Managers, Inc./Chesapeake Terrace currently has pending before the Maryland Department of Environment an application for a permit to operate a rubble landfill on property located in the Odenton area of Anne Arundel County adjacent to the intersection of Patuxent Road and Conway Road. I am writing on behalf of the applicant to invite you to a Public Informational Meeting.

The Maryland Department of Environment (MDE) has been processing this application through its five phase permitting process. As part of that process, MDE staff has requested that the applicant schedule a Public Informational Meeting as it concludes its review of the Phase II Application summarizing the geologic and hydrogeological investigation and evaluation of this site, and continues with its Phase III studies on the engineering design and operational procedures for the Chesapeake Terrace facility.

You are being contacted as either a public official of Anne Arundel County or as a neighboring landowner to advise of the time and place of the Public Informational Meeting. This meeting will begin at 6:00 p.m. on November 21, 2019 at:

The DoubleTree by Hilton Annapolis 210 Holiday Court Annapolis, Maryland 21401 Meeting Room Location: Mailsail and East Rooms

The first part of the meeting will involve informational booths with pictorial presentations related to the design, operation, and closure of the facility. During this portion of the meeting, engineers will be available to answer general questions about landfill design and concepts. At 7:15 p.m., the engineering design team will explain the development of the facility, followed by a questions and answer session.
